

5-17-07

Dear Commissioner,

I, an animal lover of all
God's creatures, agree with
AAVS's request for re-
examination of patent
6,924,413. Patents should
never be used for living
things, esp. those that
will be tortured in
experimental labs.

We live in a violent
world. Help protect the
rabbits and other small
helpless animals of the
world. Do it for the next
generation. Thank you. ☺

Sincerely,
Esther J. Hildahl
